

Yo-Yo Resource Guide

This kit contains resources to help you do a program on yo-yo tricks at your library. We have included a couple of books about yo-yo tricks to get you started. You might also find someone in your community willing to come to the library and teach yo-yo tricks. This might be a good opportunity for a teen to come in and show off his/her skills.

The kit contains 17 yo-yo's and 2 diabolo yo-yo's for teens to practice with.

There are a number of websites out there about yo-yo tricks, but many contain broken pictures, blurry images, or are inundated with ads. I've collected some of the best sites here:
